Sizing Joists and Posts

Joist spans will vary. At 16 inches apart:

- 2x6 joists can span 8 feet
- 2x8s can span 10 feet
- 2x10s can span 13 feet

At 24 inches, 2x6, 2x8 and 2x10 joists can span 6, 8 and 11 feet respectively.

Deck Cleaning Tips

If children and pets frequently enjoy the ModernView Decking composite deck, it may become soiled quickly. Here is where a hose, cleaning solution and a scrub brush or a garage broom could be put to use to keep your deck spotless. When scrubbing the deck boards, work in the direction of the grain. We recommend using the following mixture when cleaning your deck:

- 1/3 cup powdered laundry soap
- 2/3 cup Tri Sodium Phosphate
- 1-quart bleach
- 3-quarts water

Spray the mixture on and wait 15 minutes to remove. Commercial brand deck cleaners also work well, but should be tested on a small portion of the deck to ensure the product will not discolor or deteriorate the decking.

ENDURANCE RAIL

Our railings are manufactured using the highest quality materials for each and every product. Our extensive Endurance product line improves the appearance of any home or commercial space. We offer these products through building product distributors nationwide in an array of colors, styles, options and dimensions to meet all your performance and building requirements for outdoor stair railings, deck railings, level railings, handrails and more. White in stock. 6', 8' and 10' lengths in stock.

Cool Tips

Some tricks of the trade to revive lackluster asphalt and extend your driveway's lifespan:

Your asphalt driveway should last between 20 and 30 years. But over time, asphalt will start to show some wear and tear – often cracking and fading – which reduces its visual appeal, functionality and your property value.

To properly maintain it, you should seal coat asphalt shortly after your driveway installation and then reapply driveway sealant every two or three years. This will help keep the drive looking like new.
